

ANATOMY

SUMMER SEMESTER 2019/20

Tuesday - Paszkiewicz Lecture Hall 3.30 – 4.15 pm

Friday - Grzywo-Dąbrowski Lecture Hall 3.30 – 4.15 pm

THORAX

18/02/2020	Clinical anatomy of thoracic wall and the breast.
21/02/2020	Anatomy of mediastinum and its clinical applications.
25/02/2020	Anatomical basis of cardiology.
28/02/2020	Developmental anatomy of the heart and great vessels.
03/03/2020	Applied anatomy of the respiratory system.
06/03/2020	Functional anatomy of the heart.

ABDOMEN

10/03/2020	Surgical anatomy of the abdominal wall.
13/03/2020	Clinical and developmental anatomy of the peritoneal cavity.
17/03/2020	Structure and topography of the alimentary tract 1.
20/03/2020	Structure and topography of the alimentary tract 2.
24/03/2020	Anatomical basis of abdominal surgery.

GENITO-URINARY SYSTEM

27/03/2020	Applied anatomy of the retroperitoneal space.
31/03/2020	Male reproductive system.
03/04/2020	Female reproductive system.
07/04/2020	Clinical anatomy of pregnancy and labour.
21/04/2020	Clinical anatomy in urology.

UPPER EXTREMITY and BACK

05/05/2020	Topographical and practical anatomy of the back.
08/05/2020	Clinical anatomy of the shoulder.
12/05/2020	Blood vessels and nerves of the upper extremity.
15/05/2020	The hand - practical and topographical anatomy.

LOWER EXTREMITY

19/05/2020	Clinical anatomy of the pelvic girdle.
22/05/2020	Vascular system of the lower extremity and its practical significance.
26/05/2020	Biomechanics of the foot and its clinical implications.
29/05/2020	Neurological anatomy of the lower limb.
